

The University of Utah

Health Sciences

Health Services Researcher

The Divisions of Geriatrics and Clinical Epidemiology, University of Utah School of Medicine, the VA Salt Lake City Geriatric Research, Education and Clinical Center and the Salt Lake Informatics, Decision Enhancement and Surveillance (IDEAS) Center, and Western Region Rural Health Resource Center are seeking applicants for faculty positions with a Health Services Research focus to the Assistant Professor, Associate Professor, or Professor levels to join an active interdisciplinary research program.

The candidate will join a dynamic, multi-disciplinary yet cohesive, research group of more than 20 faculty that is on the cutting edge of the application of informatics in health services research. Several new major initiatives and \$9.5 million in annual research support are facilitating the rapid expansion of our research enterprise, with themes that include aging, rural health, decision-making, surveillance, patient safety, and text-processing.

Applicants for these positions must hold either a PhD or MD and should possess research experience and methodologic expertise in one or more of the following areas: pharmacoepidemiology, health economics, decision sciences, biostatistics, survey design and analysis, rural health, or minorities and underserved populations. Successful candidates will be appointed at a faculty rank and salary appropriate to his/her qualifications. These positions may be supported through a joint appointment with the VA Salt Lake City Healthcare System. Applicants should send a letter of interest and their curriculum vitae to:

Mark A. Supiano, MD
Professor and Chief, Division of Geriatrics
Department of Internal Medicine
University of Utah School of Medicine
30 North. 1900 East, AB193
Salt Lake City, Utah 84132
